

The logo features the word "TIMOTEC" in a white, sans-serif font. The letter "O" is a light blue color and has a small gap at the bottom. The text is centered within a dark gray square. A white L-shaped frame is positioned around the square, with the top-left and bottom-right corners being closed, while the top-right and bottom-left corners are open.

TIMOTEC

TIMOTEC GROUP

We are a provider of customized solutions in the fields of isolator technologies, laminar flow systems, automation, robotics, cleanrooms, and their equipment. Our main focus lies particularly in the areas of pharmaceuticals, science and research, the optoelectronics industry, the semiconductor industry, and healthcare.

We have been active in the market since 1999. By combining the professional expertise and technological solutions of the companies belonging to the TIMOTEC Group, we offer comprehensive, tailor-made solutions including fast service. Thanks to our strong know-how, in-house development and manufacturing, and a broad service portfolio, we deliver individual solutions to our customers.

A long, brightly lit hallway with stainless steel walls and doors. The hallway is clean and modern, with a white floor and a ceiling with recessed lighting and circular vents. The walls are made of vertical stainless steel panels, and there are several doors on both sides. A central white box with the word "CONTENTS" in teal is overlaid on the image.

WORK TABLES

WORK TABLES 215.01

Work tables made of AISI 304/316 stainless steel with smooth, perforated, or pressed worktops. Suitable for cleanrooms and for handling chemicals. Features include adjustable feet and grounding. Available in various dimensions.

SURFACE FINISHES:

DATA SHEET

PERFORATED TABLES FOR LF 215.02

Perforated tables made of AISI 304/316 stainless steel, designed for use in cleanrooms with laminar airflow. The worktop has a perforation of at least 30% to ensure optimal airflow. The load capacity of the tables is 100 kg.

SURFACE FINISHES:

DATA SHEET

SET-UP TABLES 215.12

Stainless steel set-up table (AISI 304) with a three-drawer cabinet and a two-shelf gallery. Can be customized with electrical/data sockets and an adjustable monitor arm. Ideal for central sterilization departments.

SURFACE FINISHES:

DATA SHEET

WASHING FACILITIES

PANELLED WASH TABLES 215.03

Panelled stainless steel wash tables certified for laboratories and healthcare facilities. Made of AISI 304/316, available with a flat or pressed surface, with customizable dimensions and sink placement. Available with various types of faucets and siphons.

SURFACE FINISHES:

DATA SHEET

A photograph of a clean, modern laboratory or cleanroom. On the left, there is a large, white, windowed enclosure, possibly a biosafety cabinet or a cleanroom workstation. The wall is white and features several electrical outlets and a control panel. In the center, a metal trolley with two shelves and four wheels is parked. To the right, there is a glass door with a white frame and a handle. The floor is a light-colored, speckled material. The overall atmosphere is bright and sterile.

HANDLING TROLLEYS

MOBILE TABLES WITH ONE SHELF 215.07

Mobile stainless steel tables (AISI 304/316) with optional shelves and castors. Load capacity 100 kg. Ideal for cleanrooms.
