Personnel Airlocks

BENCHES

- Benches complete the range of facilities for personnel pass-through.

Benches CL1

- CL1 - Benches for clean areas Class “C”
- The basic profile at a height of 50 mm is coated with flooring or treated with thermosetting powder coating RAL 9016.
- The interior may be articulated variously.
- The bench is made of pressed laminated chipboards.

Benches CL2

- CL2 - Benches for clean areas Class “C”
- Laminated board with an ABS edge, fitted to a metal structure on adjustable feet. Feet ends are capped to suit the clean areas.
- The frame is treated with thermosetting powder coat RAL 9016

Benches CL3

- CL3 - Benches for clean areas Class “C”
- Stainless steel plate fitted to a stainless steel structure on adjustable feet. Feet ends are capped to suit the clean areas.
- The entire bench is made of stainless steel AISI 304, with surface finish SB.

KEY:

L - partition made of panel

P - additional covering made of partition panel

- Benches for clean areas Class “B”
- Stainless steel plate fitted to a galvanised metal substructure.
- Sides which do not touch walls of the room are fitted with additional covering using partition panels on a basic profile with a height of 50 mm. The basic profile is coated with flooring or treated with thermosetting powder coating RAL 9016.
