STAINLESS STEEL WORK TABLES

- Stainless steel work tables, along with the other elements of the Forlab stainless steel system, are a complete kit for setting up any furniture assembly that meets the customer's requirements.
- The frame is composed of H-shaped side legs and reinforcement bolted to the side legs. The legs feature standard adjustable feet allowing to adjust the table height (approx. 30 mm). When assembling two tables, one central leg, instead of two legs, is used for joining the two tables
- The worktop consists of a P1.5 stainless steel sheet facing and a laminate filler. From the perspective of design, it may be simple, with indentation (edge raised by 8 mm), with edge raised by 40 mm or partially perforated. Perforation is carried out on up to 70 % of the worktop surface using oval holes of 6.5 to 18.5 mm.

Dimensional range:

Width (mm)	900; 1200; 1500; 1800
Depth (mm)	600; 750; 800
Height (mm)	750, 900

STAINLESS STEEL WORK TABLES

S1: Type designation

215.01: Work table GMP

S2: Width

value	width
1200: Table width	1200 mm
1500: Table width	1500 mm
1800: Table width	1800 mm
900: Table width	900 mm

S3: Depth

value	depth
600: Table depth	600 mm
750: Table depth	750 mm
800: Table depth	800 mm

S4: Height

value	height
750: Table height (total)	750 mm
900: Table height (total)	900 mm

S5: Table construction type

S: GMP S - Self-supporting

S6: Worktop design

F: Perforated

H: Smooth

Z: Perforated with sump tray

S7: Bordering

L: Edge raised by 40 mm along the perimeter (smooth, perforated with sump tray)

P: With indentation along the perimeter (smooth, perforated with sump tray)

Without bordering (perforated)

S8: Table frame surface

value	material
N4F8: Table frame surface	nerezová ocel AISI 304 brus FIN8
N6F8: Table frame surface	nerezová ocel AISI 316L brus FIN8

S9: Worktop surface

value	material
N4F8: Worktop surface	nerezová ocel AISI 304 brus FIN8
N6F8: Worktop surface	nerezová ocel AISI 316L brus FIN8
