STAINLESS STEEL WASHING TABLES

- Stainless steel washing tables, along with the other elements of the Forlab stainless steel system, are a complete kit for setting up any furniture assembly that meets the customer's requirements. The table consists of worktop, frame and additional covering.
- The worktop consists of a P1.5 stainless steel sheet facing with a welded-in sink(s) and a laminate filler. From the perspective of design, it may be simple, with indentation (raised edge) or with edge raised by 40 mm.
- The frame is composed of H-shaped side legs and reinforcement bolted to the side legs. The legs feature standard adjustable feet allowing to adjust the table height (approx. 30 mm). When assembling two tables, one central leg, instead of two legs, is used for joining the two tables. The sheet covering may be one-sided, two-sided or three-sided.

Dimensional range:

Width (mm)	900; 1200; 1500; 1800
Depth (mm)	600; 750; 800
Height (mm)	900
